

WisdomWare

Magnifier/Screen Readers, CCTV's, Naturally Speaking, Sony & Phillips hand held Modules, Window Eyes, OCR Packages (i.e. Scan & Read, Complete Reading Systems & Talking Word Processors, as well as any of your mainstream computer needs)

We specialize in working with those who are disabled (i.e. the blind, low vision, paraplegic, quadriplegic, seniors, those who have carpal tunnel, learning disabilities or have hand & finger dexterity issues), giving them a greater independence in life and to become more productive. We work with businesses, agencies and as an advocate for your clients. We provide onsite support, training, trouble shooting, and assessments. We build our own desktop and laptop computers, through the means of adaptive technology. For more information feel free to contact us by phone, e-mail or access our website:
